

IDEAL FOR CURVED INSTALLATIONS

BT8390-AAC

ANGLE ADJUSTMENT CONNECTOR

The BT8390-AAC is a connector that allows System X mounting rails to be joined together with an adjustable angle from -45° to +45°. This enables a solid, stable installation of curved multi-screen displays such as videowalls and menu boards and facilitates an installation process which is both quick and simple, aided by integrated angle guides.

SPECIFICATION

Angle adjustment range	+/- 45°
Connectors supplied per pack	1
Colour	Black

FEATURES

- Easy to use angle adjustment - set before or after installation
- Integrated angle guides eliminate the need to measure required angles
- Integrated rail mounting guides ensure the join position is consistent throughout the installation without the need to measure
- Simple installation with all mounting hardware included

SYSTEM X

Integrated angle guides eliminate the need to measure required angles

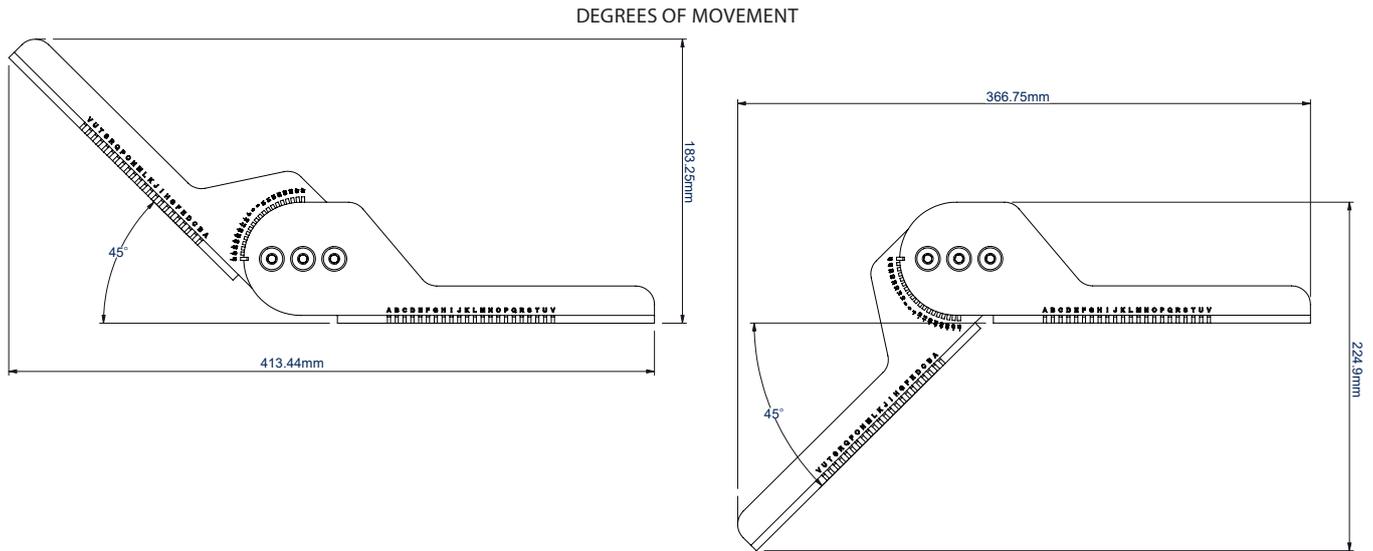

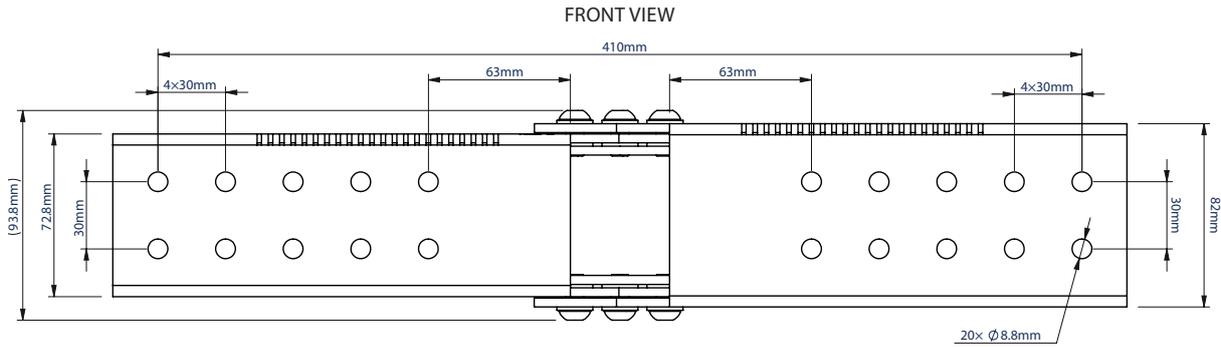

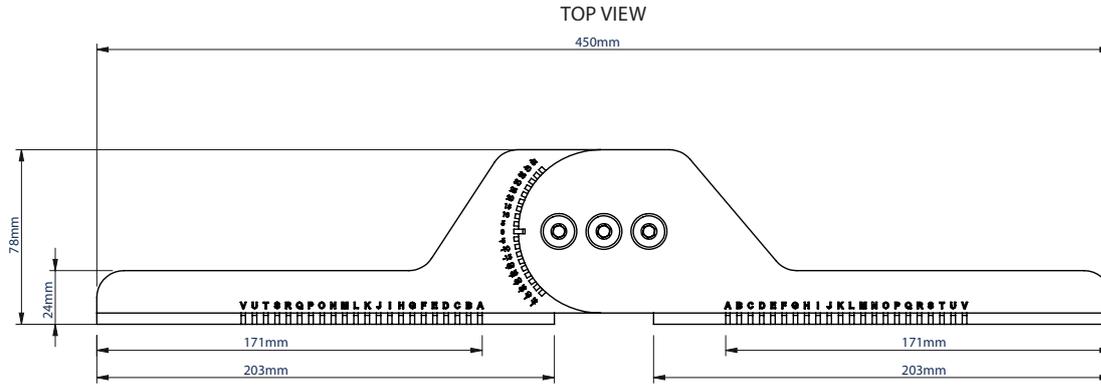

Integrated rail mounting guides ensure the join position is consistent throughout the installation without the need to measure

Angle up to +/-45° to create a concave or convex curve

Ideal for assembling curved videowalls and menu boards
