PRESENTER TABLE PROJECTION SCREENS

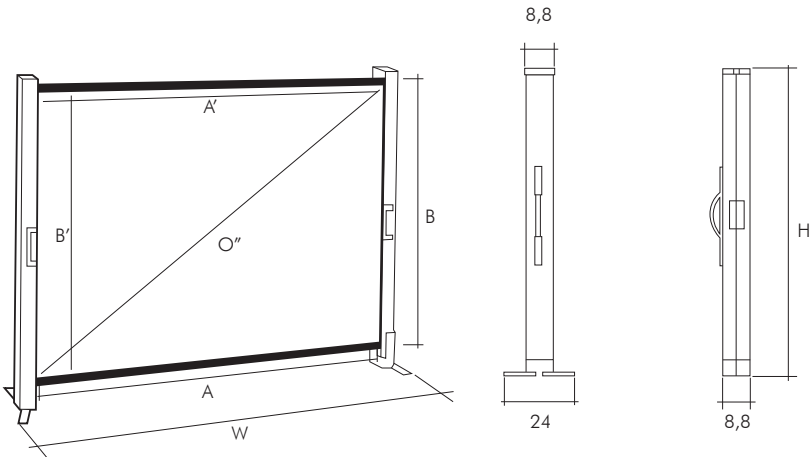

the smallest and most compact screen available on the market

PROJECTION

Compact and light PRESENTER screen is the ideal tool for travelling professionals who are looking for a particularly versatile and elegant product. Perfect for table presentations, ideal partner of portable LCD and DPL projectors, PRESENTER screen is available with 40" (71,8x92,7 cm) and 50" (87x113,1 cm) diagonal, with ultra light, high brightness fabric. It is truly the most portable screen currently available on the market. Suitable for classrooms, small size meeting rooms, it is frequently used for rental application. The best projections are obtained in darkened rooms even if the black back of the canvas substantially reduces ambient light disturbances.

Technical features

- **Projection fabric** in elastic PET high brightness, 250MY thickness. Matt white front projection and **glossy black back** suitable for video projection. 50 ° viewing angle, light gain factor of 1.2
- **Two horizontal black borders**, 2 cm height, located above and underneath the projection surface, are masking sharpen the image projected on the screen.
- **Patented "scissor" opening and support system** to get the screen ready to work with a single manoeuvre; spring rewinding system to wrap it back after use, quiet and reliable mechanical system.
- **Ultra compact, sturdy, still ultra-light, aluminium housing**, Epoxy coated, **black** colour, pleasant design, particularly handy, suitable for transport and easy to fold after use.
- **Non-slip rubber handles** with steel core for the opening and closing of the screen
- **Four retractable and adjustable feet** located under the case to ensure perfect screen stability.
