

DROP SOME BEATS

Music from above

Gallo Acoustics DROPLET pendant speakers are the antidote to bland, corporate, hanging and in-ceiling speakers, and the solution to the challenges of open architecture and high ceilings. They offer a welcome injection of personality and color for projects that demand real hi-fi quality in a design-focussed, decor-friendly form.

At home in a wide variety of environments including private residences, bars & restaurants, retail stores, malls and exhibition centres,

DROPLET has the audio credentials to back up its obvious aesthetic charms. Based upon our acclaimed 4" and 5" Micro and A'Diva spherical loudspeakers, DROPLET has true hi-fi pedigree and unrivalled clarity and dispersion.

Available in a choice of 11 stock colours and 9 different cable finishes, DROPLET opens up a world of interior design opportunities.

And for that special project our SPECTRUM bespoke colour service can match any colour, whether from the Pantone or RAL colour systems or simply a swatch of wallpaper, and with a delivery time measured in days not weeks.

Call us today to find out how Gallo Acoustics can benefit your next project.

70V / 100V Line Option Available
