Structure

All-metal structure with natural air circulation.
Does not include the presence of fans.

Front compartment for storing devices equipped with security lock and front panel that can be opened 180°.

Three fixed shelves with 12 plastic dividing bulkheads equipped with built-in grommets for housing devices in an upright position.

Provision for installation of fans (optional) for rapid cooling of devices.

OPTIONAL

Predisposition
Cooling fans

COD. HLGFAN

Power and Charging

Rear closure panel not hinged.

Equipped with four strips of 9 sockets each and compartment for transformer placement.

Control unit for simultaneous power timing on all outlets or in timed sequence to avoid overloading.

Single 5m power cable built into the power pack.

Storage and charging

Three fixed shelves with 12 removable plastic dividing bulkheads equipped with built-in grommets for housing devices in an upright position.

Removable partition bulkheads, as per instructions below.

Removing the dividers allows the cart to be adapted for charging any type of device, including accessories such as VR viewers and headsets (by way of example).

Compatible product

With all rechargeable devices

With three simple steps, the dividing bulkheads can be removed to adapt the Omnichart 36 charging cart to any need.
